

**FUND FOR SIMON'S ROCK
ALUMNI CHALLENGERS**

March 2008

Adeboye Adejare '75

Dear Alumni,

Catya Belfer-Shevett '88

Yes, we are asking for money, but before you toss this letter in the trash, hear us out. Not only was Simon's Rock a transformative experience for most of us; it remains transformative for today's young minds. Your contribution ensures that Simon's Rock will continue to be a unique and exceptional educational experience. The money you send in today produces a ripple effect far beyond its direct monetary usefulness. The percentage of alumni contributions to the school is used as a proxy by foundations when considering alumni satisfaction. Foundations use this statistic as a factor in the decision to provide grants (and the size of those grants). So if your experience was positive, transformed you, helped you, was just plain fun, and if in retrospect you were satisfied with your experience at Simon's Rock, register your satisfaction and give.

Cordelia Derhammer-Hill '86

Look around you and think about the role Simon's Rock played in your life. Did it build confidence? Teach you to think? Expand your mind? For as little, as the cost of a large pizza, you can make a difference. Remember, if you are giving a new or renewed gift of \$25 or more, the Alumni Challengers listed to the left will match your gift with \$100—so there has never been a better time to contribute toward scholarships. Provide the opportunity of Simon's Rock to the young minds of today, join us and give to the Rock.
